<TEXT>I do not want to pay more for my telephone service! I urge  
you to reject a flat fee proposal that would change how  
contributions are made to the Universal Service Fund. I am  
concerned that this proposal could make my current service  
unaffordable. I already have tons of bills including a bill for  
higer education, and I will soon have another child in College.

Under the flat fee proposal you are considering, people who make  
few long distance calls would pay the same as people or  
businesses that make many calls. In other words, low-volume and  
primarily residential customers would bear the same universal  
service fund burden as a high-volume residential or business  
customers. This is unfair!

I use my wireless phone for safety, security and convenience. I  
don't want to lose these benefits so that big businesses can pay  
less than their fair share. I urge you to reject the proposal to  
move the USF collection system to a flat-fee. Please, Plesae,  
Please.

Keep the USF Fair!

Sincerely,

Renee Hargraves
